This policy is changed by adding the following exclusion:

By executing this policy the Insured agrees and understands that this policy and the terms set forth herein are based upon and the coverage afforded by this policy is contingent upon the Insured installing and maintaining in proper operating order, an event data recording and camera system (EDR System) as proscribed by the insurer (as outlined below).

The Insured understand and agrees that failure to install and maintain the proscribed EDR System invalidates this policy and voids coverage pursuant to this policy.

In the event that for any reason, the EDR System fails or is not functioning properly in any insured vehicle, the Insured warrants that they will immediately remove the effected vehicle from service and operation, notify the Insurer and camera vendor in order to promptly take all necessary steps to rectify the issue.

This policy does not insure against or provide indemnity for damages of any kind, fines, penalties, exemplary or punitive damages or any other type or kind of judgement or award in the event that the EDR System is non-functional. This exclusion is based upon the Insureds Warranty that such EDR System will be utilized and functional at all times.

This exclusion applies to all coverages provided under this policy.
